Assembly Bill 1054, signed into law in July 2019, created the California Wildfire Safety Advisory Board, a board of independent expert advisors, to advise the [Wildfire Safety Division](#) within the California Public Utilities Commission (CPUC) on wildfire safety measures, including plans written

by utilities, so the CPUC can more effectively regulate the safety of investor-owned utilities. Additionally, the Board must review the Wildfire Mitigation Plans submitted by Publicly Owned Electric Utilities and Electrical Cooperatives and provide comments and an Advisory Opinion. The Wildfire Safety Advisory Board also serves as an additional forum for the public to provide input on the important topic of wildfire safety.
