Re: WSAB's Draft Guidance Advisory Opinion for the 2022 Wildfire Mitigation Plans of Electric Publicly Owned Utilities and Rural Electric Cooperatives

Dear Wildfire Safety Advisory Board:

Burbank Water and Power (BWP), a department of the City of Burbank, would like to confirm its receipt of the Wildfire Safety Advisory Board (WSAB) draft Guidance Advisory Opinion for the 2022 Wildfire Mitigation Plans of Electric Publicly Owned Utilities and Rural Electric Cooperatives dated February 10, 2022.

BWP would also like to acknowledge the WSAB's request for comments to the WSAB's draft Guidance Advisory Opinion by February 17, 2022. BWP has been collectively reviewing the WSAB's draft Guidance Advisory Opinion with other publicly owned utilities through the California Municipal Utilities Association (CMUA) and the Southern California Public Power Association (SCPPA). BWP concurs with comments submitted to the WSAB by joint associations CMUA, SCPPA, Northern California Power Agency, and the Golden State Power Cooperative as per their letter dated February 17, 2022.

We thank the members of the WSAB for providing their recommendations to BWP's Wildfire Mitigation Plan. BWP will evaluate the recommendations made by the WSAB, and where appropriate, incorporate them into a future WMP.

Should you have any further questions, please call David Hernandez of our Engineering Division at 818-238-3576.

Sincerely,

Riad Sleiman

Riad Sleiman
Assistant General Manager, Electric Services
