Title:	Legislative Framework		
Adopted:	January 8, 2024	Resolution:	24-04-01
Revision:			

The California Underground Facilities Safe Excavation Board will be guided by the legislation listed below as it executes its legislative mandate and strives to improve public and worker safety through education, investigation, enforcement, and establishing safety standards and standards for the evidence necessary for compliance with the Dig Safe Act requirements. These statutes and regulations are fundamental to the Board's authority and purpose and must be reviewed annually with any changes reported to the Board.

- **The Dig Safe Act**; Government Code division 5, chapter 3.1, article 2 (§4216 et seq.).
- **Public education programs**; Title 49 United States Code section 60116.
- **Damage Prevention Program Elements**; Title 49 United States Code section 60134(b).
- **Damage Prevention Program**; 49 Code of Federal Regulations part 192.614.
- **Pipeline Repairs**; 49 Code of Federal Regulations part 195.422.
- **What criteria will PHMSA use in evaluating the effectiveness of State damage prevention enforcement programs?**; 49 Code of Federal Regulations part 198.55.

Monitoring Method: Staff
Frequency: Annual
