RE: 2020 Wildfire Mitigation Plan Data Requests (R.18-10-007)
Wildfire Safety Division 2020 WMP Data Request – Horizon 20200226

Dear Ms. Jacobs,

The Wildfire Safety Division ("WSD") issued data requests to Horizon West Transmission, LLC ("Horizon West") (U222-E) on February 26, 2020 regarding Horizon West's Wildfire Mitigation Plan ("WMP"), submitted in this proceeding on February 7, 2020. Under the requirements set forth in Resolution WSD-001, Horizon West's responses to these data requests are due March 2, 2020.

Horizon West received your letter dated March 2, 2020, establishing guidelines for all electrical corporations' responses to WSD data requests and providing an extension of time for electrical corporations to respond to the WSD requests by March 6. Horizon West is preparing its responses to the WSD data requests and had anticipated submitting those responses by March 2, as required by Resolution WSD-001. However, in order to provide the information in the form required by the March 2 letter, Horizon West respectfully requests an extension to submit its responses consistent with the March 2 letter. The reason for the extension request is that additional time is needed to ensure that Horizon West's responses conform with the guidance in the March 2 letter.

Pursuant to item 3 in the March 2 letter, this request applies to the following Item Index numbers from the WSD's February 26 request:

- HWT-43879-C-177

In response to item 3(b) of the March 2 letter, Horizon West responds that additional time is needed to ensure that Horizon West's responses conform with the guidance in the March 2 letter. Horizon West plans to submit the responses by March 6.

Horizon West appreciates your consideration of this request. Please do not hesitate to contact me with any questions.

Sincerely,

/s/ Tracy C. Davis
