(d) Both electronic and paper documents shall:

(1) be in a clear, easily readable font of at least 11 points;

(2) have consecutively numbered pages; and

(3) include the following information on the first page:

(A) Name of the docket;

(B) Number of docket; and

(C) Title of the document.

(e) For electronic documents, signatures may be electronic.

Note: Authority cited: Sections 15473, Government Code. Reference: Sections 6253.10, 7405, 15473 and 15475, Government Code.

## Section 29200. Submission of Confidential Information

Access to information concerning the conduct of the people's business is a fundamental and necessary right of every person in California. All documents submitted to the office are public records.

(a)    Information submitted to the Office may be granted a "confidential designation" if the submitter makes a reasonable claim that the Office is authorized to and should withhold the information from public disclosure.

(a)(b)  ~~Any person who submits~~ **A person or entity submitting** information to the ~~office~~ <mark>Office</mark> ~~and who~~ <mark>~~requests that Energy maintain~~</mark> ~~asserts that the information is exempt from disclosure to the public must, at the time of submission:~~ **may request a confidential designation for the information by including the following at the time of submission:**

(1)  ~~Specifically identify and mark the information claimed to be exempt from disclosure;~~ **One unredacted copy of the record containing the information.**

~~(2)~~  ~~Segregate the information to the extent reasonably possible;~~

**(2)   One redacted copy of the record if the information claimed to be exempt can reasonably be redacted.**

<mark>~~(3)   Provide both redacted and unredacted versions of documents claimed to be exempt from disclosure;~~</mark>

<mark>~~(3)   When the information can be reasonably segregated, submit to Energy Safety a public version with the information that is claimed to be exempt redacted.~~</mark>

**(3)   A statement that:**

~~(4)~~ **(A)   ~~Identify~~ Identifies** the statutory basis for the exemption or exemptions claimed;

~~(5)~~ **(B)   ~~State~~ States** the reasons why each exemption claimed applies to the information;

~~(6)~~ **(C)   ~~State~~ States** the length of time the exemption or exemptions apply to the information, and explains the basis for the length of time stated; and

~~(7)~~ **(D)   ~~Provide~~ Includes** the following ~~statement~~ **certification**, executed by a person ~~**primarily responsible for preparing**~~

> ~~**the confidential submission certifying**~~ **authorized to make the certification on behalf of the submitting entity**:

> "I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge~~;~~." ~~**and**~~

> ~~**(8) States that the person preparing the confidential submission is authorized to make the certification on behalf of the entity, organization, or association.**~~

~~**(b)**~~ **(c)** ~~**Where a person or entity submits information to the office, and asserts that the information should not be disclosed to the public because**~~ **If an exemption from public disclosure is being claimed** because the information contains trade secrets or because disclosure would cause the loss of a competitive advantage, then the ~~**person must, at the time of submission comply with all the requirements in subsection (a)**~~ **required statement described in subsection (b)(3)** ~~**and also**~~ **must also**:

(1) Specifically identify the competitive advantage;

(2) State how the advantage would be lost through disclosure; ==and==

(3) ==~~State the value of the information to the applicant; and~~==

~~**(4)**~~ ==(3)== Describe the ease or difficulty with which others could ~~**legitimately**~~ acquire or duplicate the information.

~~**(c)**~~ **(d)** If a confidential designation request is incomplete or the submitting person **or entity** has failed to make ~~**any**~~ **a** reasonable claim that the California Public Records Act or other provision of law authorizes the Office to keep the information confidential, the Office shall provide to the submitting person **or entity** a statement ~~**of its**~~ **identifying the** defects and a request for additional information. **If the missing** additional information~~**, or a request for an extension of time to respond,**~~ is not submitted **to the Office** within ==~~seven days~~==

fourteen days of receipt of the request, the **originally submitted information** shall not receive a confidential designation.

(d) (e) A "confidential designation" means that the applicant has made a facially reasonable claim that the Office may withhold the information from public disclosure. Consequently, the information will not be published. By **In** granting a confidential designation, the Office is not making a final determination **or guarantee** that the information will be withheld from disclosure pursuant to the California Public Records Act or other provisions of law.

(e) (f) A confidential designation granted by the Office is not a guarantee that the Office will withhold the submission where it is subject to a lawful subpoena, Public Records Act request, or where disclosure is otherwise required by law. In the event of a receipt of such a request for designated confidential **disclosure of** confidentially designated information materials, before the disclosure, the Office will attempt to notify the submitter of the information before the **prior to** the mandated disclosure unless notification is prohibited by law.

# About the E-filing System

The primary purpose of the Office of Energy Infrastructure Safety (Energy Safety) is to ensure electrical utilities are taking effective actions to reduce utility-related wildfire risk. The office operates under several guiding principles, one of which is delivering near-term results while promoting a long-term utility wildfire vision.

As part of operations of Energy Safety, the e-filing system will be used by various Utility agencies, Internal staff, and the public to electronically file documents by means of dockets. The dockets will be grouped under various cases that will be setup by Energy Safety.

The e-filing system seeks to achieve the following goals:

1. Improve the organization and management of Energy Safety documents
2. Accelerate processing of filings
3. Eliminate or reduce the requirement for hard copy document submission
4. Enable electronic filing and tracking
5. Reduce costs for everyone involved

## ABOUT THIS DOCUMENT

This document is intended for users who will be making e-filings.

The manual is designed to be used as a training guide and reference tool and is organized to explain what functionality is available for each user to access and use throughout the process. Each section is designed to be self-contained so that if you need to look up how to complete a specific task, you can quickly consult the corresponding section and find the information needed.

The system requires users to interact with the system based on specific roles:

- Intervenor: Intervenors are public who wish to intervene in in specific cases. In order to perform e-filings, intervenors will have to register themselves in the system.

- Utility: Utilities will also be registered users of the e-filing system and will be able to submit documents for their utility.

- Office of Energy Infrastructure Safety: The Office of Energy Infrastructure safety staff will manage dockets and documents in the e-filing system, including reviewing, validating, and accepting or rejecting the e-filed documents.

# Case and Docket Navigation

Anonymous and authenticated users can navigate the various cases and their dockets from the Dashboard page. The dashboard page can be reached from the following link in the main navigation. It is also linked in the top navigation bar of the Energy Safety website.

On the Dashboard page, the list of all Cases is displayed. The user can also use the Search box to search for a specific Case. When the user selects a particular Case, the list of all Dockets under that Case is displayed.

**Selecting a docket from this page, will take the user to the Docket page where details about that Docket is displayed. A list of actions that can be performed on the Docket is displayed on the right navigation of this page.**

The list of actions that can be performed on the docket are as listed below

## VIEW/SEARCH DOCUMENTS IN THE DOCKET

From the Docket Detail page, when you click on the "View/Search Documents" link on a specific docket's page, you will see the following page:

**The default view will show a listing of all the documents that are published in that docket for all types of submitters.**

**The words in Bold Font on the right-hand side of the page are the filters. They can be used to narrow down the number of documents that are being listed in the search results.**

For example, to list the documents that have been submitted by Utilities only, click on the "Utility" link under the "Submitter Role." The documents submitted by utilities will then be listed.

Similarly, other filters can be used as shown in the screenshot above to further narrow your search.

## SUBMIT E-FILING

Information on submitting an e-filing can be found in Section 4.1.

## SUBMIT CONFIDENTIAL E-FILING

**Information on submitting a confidential e-filing can be found in Section 4.2.**

# DOCKET LOG

**To view the list of all published documents for a particular docket, navigate to the specific docket and click on the "Docket Log" link.**

# Account Creation and Profile Maintenance

The e-filing system is a quick and easy way for the Utilities, Energy Safety staff, intervenors, and other parties to file necessary documentation for cases. The e-filing system requires document submitters to register before submitting documents. The system allows submitters to submit documents, submit confidential documents, look up active cases, view submission history, update the submitter profile, and recover forgotten passwords.

## USER REGISTRATION

As a submitter, the first time you log in, you will need to "Register as a New User". You can get to the Login screen when you click on the links "Submit e-filing", "Submit Confidential e-filing" or "Login" from the top navigation

From the Login screen you can get to the Registration screen by clicking the link as shown below.

# Login

Password

**Sign In**

Forgot your password?    Register New Account

Note that users can also click on the "Forgot Password" link to recover their passwords in case they have forgotten them.

You are required to complete a simple, one-time registration to create your e-filing account. Mandatory fields include name, email address, and password. You are asked to provide a security question and answer in case you forget your password.

After you agree to the Terms of the Use and click the "Agree & Create Account" button, the system will register you and send an automated email informing you that you are able to log into the e-filing application and submit documents.

Once your account is registered, you will receive an email saying that the account was created successfully. You will then be able to log into the system using your specified credentials.

# USER PROFILE MANAGEMENT

Once authenticated, users can access their Profile page from the "Your Profile" link from the top navigation. From here, you can update your profile, change your email address, or change your password.

# E-filing

The process of e-filing involves three steps:

1) Selecting the docket and role in the docket;

2) Uploading one or more files and adding descriptive information (metadata) for each file; and

3) Reviewing the document and accepting the terms and conditions for submission.

The user can navigate to the e-filing page by using the following link in the navigation

You will be required to login with an account to proceed. The steps involved in account creation are covered in Section 3.1.

Please log in to continue.                                                        ✕

Upon successful submission of the files, the system will provide an on-screen message.

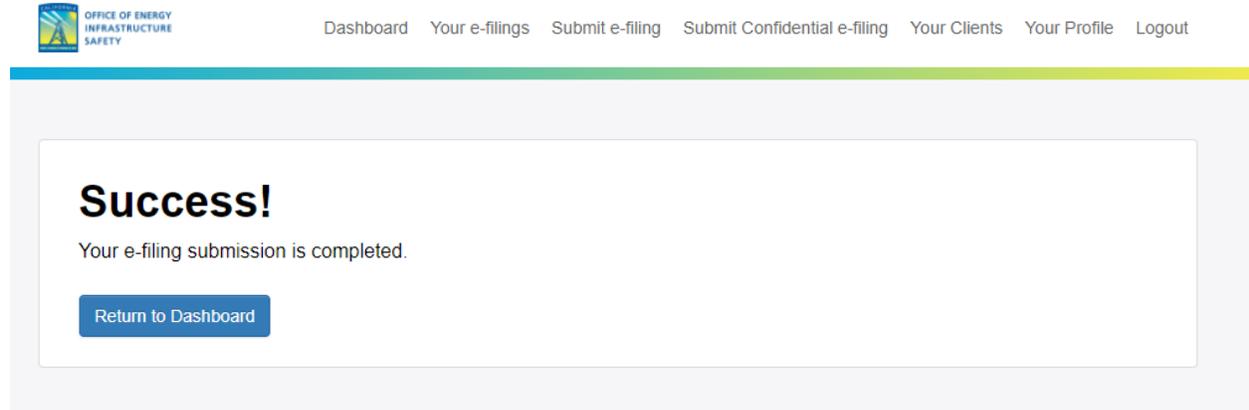

The system will send an email notification to your registered email address regarding your e-filing. You can also view the status of the e-filing on the "Your E-filings" page, the link for which is available in the navigation.

When you click on the "Continue" button, you will be redirected to the Dashboard tab and a message confirming the success of filing will be displayed on the Dashboard.

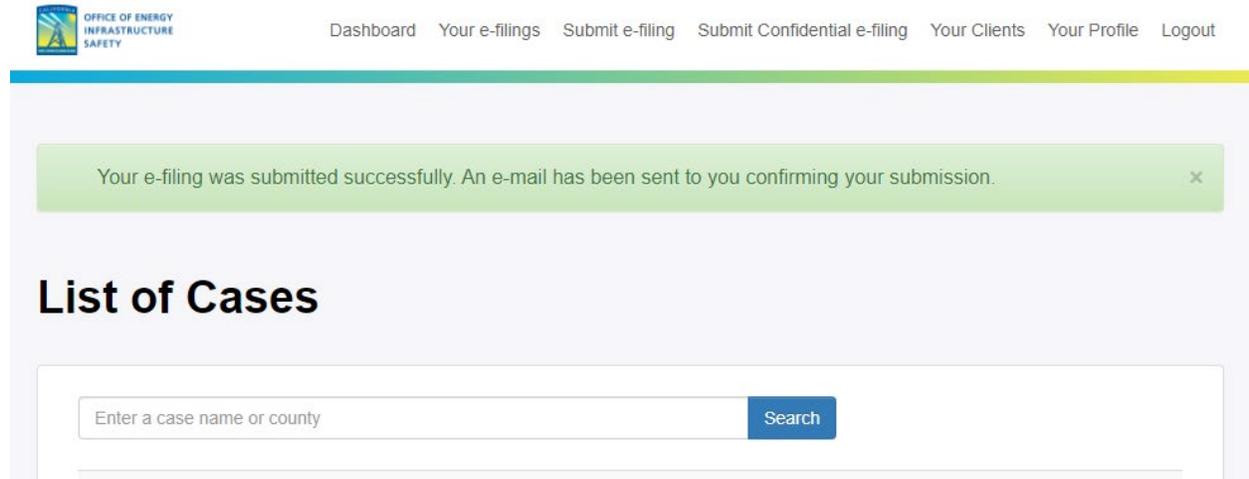

Once the Energy Safety staff approves the document, you will receive an email detailing it's approval. If the Energy Safety staff rejects any documents, you will be notified via email as well. The email will provide the reason for the rejection.

When Energy Safety staff approves a document, the Service List and/or Distribution List for that docket will also be notified that a new document has been added to the docket.

# CONFIDENTIAL E-FILING

The link to submit a confidential e-filing is available in the main navigation.

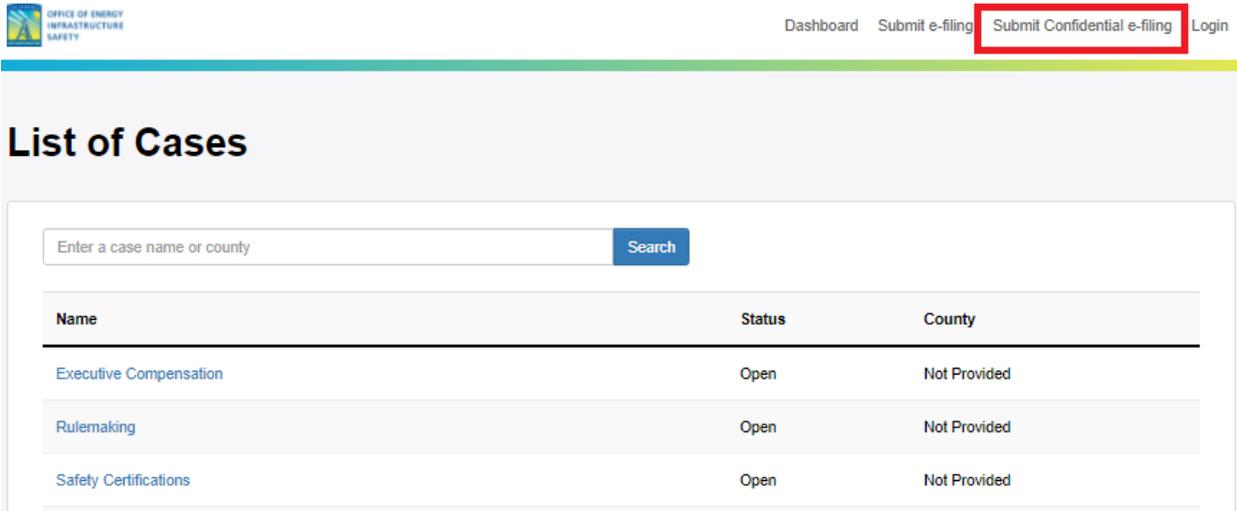

This action can also be performed from the Docket Detail page. Navigating to a specific docket has been covered in Section 2.

Confidential e-filing involves three steps that are similar to a regular e-filing. Step 1 is identical (see the discussion in Section 3.1 on how to select a proceeding docket and a role in the proceeding docket).

However, in Step 2, you must first select and upload a file containing the Application for a Confidential Designation (the document that provides details as to why the remainder of submitted documents are confidential). Whether or not confidential status is approved, the Application for Confidential Designation will be a publicly visible document. File Requirements are noted below. Only .pdf, .doc, .docx, .rtf, and .txt files are allowed with a 50 MB size limit.

Maximum upload file size: 50MB. Allowed attachments: pdf, doc, docx, rtf, txt.

[ Upload and Continue ]

After uploading the Application for Confidential Designation, you will be redirected to the page listing the uploaded Application file and now have the opportunity to upload the additional confidential files. Similar to the regular e-filing upload process (see section 3.1.2), file details (metadata) must be provided for each file, via the Edit details link beside each file.

**When adding details for confidential files, there is additional metadata that is required that is not displayed for non-confidential files, specifically the "Confidentiality Sunset Date" field. This field is used to indicate the date when a document can be made non-confidential. If the document is intended to be confidential for an indefinite amount of time, please select the "Indefinite" option under the "Confidentiality Sunset Date" field. A screenshot is shown below.**

**Once the required details for all the files are entered, the "Continue to Review and Submit" button will be enabled and will allow you to go to the final step of the process.**

Note: Multiple documents uploaded within the same transaction will be given the same transaction number. If documents should not be grouped, you will need to file in separate sessions.

I affirm or certify that I am submitting comments or documents that I am legally able to submit, either based upon my authority or based upon permission I have received with respect to copyrights or trademarks, if applicable. I also affirm or certify that my comments or documents comply with the guidelines from the Office of Energy Infrastructure Safety for appropriate submissions.

Please note that unless an applicable request for confidentiality has been approved, your written and oral comments, filings, attachments, and associated contact information (e.g. your address, phone, email, etc.) become part of the viewable public record. Additionally, this information may become available via Google, Yahoo, and any other search engine.

After successful submission of the documents, you will be notified via email of your submission.

After the Energy Safety office staff approves the document(s), the document(s) will be forwarded to the Confidential Reviewer for final review before they are entered into the respective docket. You will also be notified by email when that approval or rejection happens.

---

As with non-confidential e-filings, when Energy Safety staff approves a confidential document, the Service List and/or Distribution List for that docket will also be notified that a new document has been added to the docket. However, these documents will not be publicly accessible.

## LOOKUP AND SEARCH YOUR E-FILINGS

The system provides a Standard and Advanced user interface that allows you to look up a document. The lookup returns up to 25 records at a time. The search results are sortable.

In order to review your e-filings you must first login with your username and password. Then you will select "Filings" on the top menu you are able to see your uploaded documents to date.

You can click on the text box to the left of the search button to search the documents and enter the Transaction Number, Docket Number, Project Title, or Document Title. Filings that match the criteria will be listed below the search criteria. From here you can search on the e-filings you have made. See the screenshot below.
